Madrid, Spain (open to relocation) | Available: Aug/Sep 2026

Data Scientist / Junior ML Engineer with hands-on experience at BBVA AI Factory (banking) and Minsait/Indra (tech consulting). Proficient across the full ML workflow: data ingestion and cleaning with Python and AWS, feature engineering, model training and evaluation with Scikit-learn, and results communication via Power BI and Looker Studio dashboards. M.Sc. in Big Data Science (University of Navarra). Cambridge C1. Erasmus+ alumnus (Sweden).

Professional Experience

BBVA AI Factory

Sep 2025 – Present

Machine Learning Engineer Intern

Madrid, Spain

- Built end-to-end ETL pipelines in Python (Pandas, NumPy) managing dataset ingestion and storage on AWS S3 and querying via Athena.
- Designed and implemented interactive dashboards in Amazon QuickSight and Google Looker Studio for financial and operational KPI monitoring.
- Contributed to Machine Learning projects on AWS SageMaker: data preprocessing, feature engineering, model training and evaluation using classification and regression metrics.
- Automated recurring reporting workflows to support data-driven decision-making at team level.

Minsait (Indra Group)

Sep 2024 – Jun 2025

Business & Strategy Consulting Intern

Madrid, Spain

- Functional consultant for the implementation of **Kinaxis Rapid Response**, digitalising and optimising supply chain operations for enterprise clients (Certified Maestro Solution Consultant L1).
- Executed Data Quality projects: exploratory analysis, data cleansing and master data modelling to ensure dataset integrity ahead of migration.
- Managed direct client relationships: requirements gathering, support, issue resolution and progress presentations to stakeholders.
- Participated in functional analysis workshops and contributed to defining technical solutions aligned with business objectives.

Education

M.Sc. in Big Data Science (Executive format, weekend classes)

Sep 2025 – Jun 2026

Universidad de Navarra — Campus Postgrado

Madrid, Spain

B.Sc. in Science, Management and Service Engineering

Sep 2021 – Jun 2025

Universidad Rey Juan Carlos

Madrid, Spain

Erasmus+ Exchange Programme

Aug 2023 – Jan 2024

Blekinge Tekniska Högskola (BTH)

Karlskrona, Sweden

Technical Skills

Languages: Python (**advanced**), SQL, Java

Data Science & ML: Pandas, NumPy, Matplotlib, Scikit-learn, Feature Engineering, Model Evaluation, Jupyter Notebooks

Cloud & DevOps: AWS (S3, Athena, SageMaker), Git / GitHub, Visual Studio Code, MySQL (AWS Certified Cloud Practitioner)

Business Intelligence: Power BI (**advanced**), Looker Studio, Amazon QuickSight, Microsoft Excel

Methodologies: ETL/ELT Pipelines, Data Quality, Feature Engineering, Model Evaluation, Executive Reporting, Agile/Scrum

Languages

Spanish — Native

English — C1 Advanced (Cambridge CAE)

Additional

Open to relocation within Europe and internationally. International study experience in Sweden (Erasmus+), with strong adaptability to multicultural environments. References available upon request.
